Re: Wilson Investigations and Ken Wilson

Dear Ken:

Please accept the thanks of the Thurston County prosecutor's office for your efforts in the cases of State vs. Lori Doughty and State vs. Michael Doughty.

From the beginning when this office approached you and hired you about providing financial analysis of these two cases you were professional, thorough and outstanding. You came highly recommended to me by several individuals and I am glad we were able to utilize your services.

I was impressed with the way you took huge amounts of complex data and worked it into a manageable form. Your involvement from the beginning in providing direction for the investigation was both crucial and invaluable. Your timely requests for additional obtainable evidence were decisive in assisting the completion of the investigation by the Olympia police.

My job was made much easier by your critical review of the evidence and in providing insight and recommendations into the potential charges available for this case. Your continued critical evaluation of the materials was appreciated. As you know this theft scheme was the largest in the history of Thurston County and one of the largest in the history of the State of Washington. I cannot emphasize enough how valuable your presence was throughout this successful prosecution due in large part to your amazing efforts.

I would consider it a privilege to work with you again and highly recommend you and your services to any other individual or organization that needs a professional job, done right, on a complex case.

Best regards,

Joseph F. Wheeler
Senior Deputy Prosecutor,
White Collar Crime Complex Fraud Deputy
