To whom it may concern,

In January of 2010 I was being embezzled by my front office manager in my dental office. I hired Ken Wilson as a forensic accountant/fraud investigator. His work was thorough and complete even to the point of referring me to a video specialist who recorded the theft on a hidden digital camera.

Ken's work resulted in a conviction and the perpetrator is now serving a year and one day at Purdy Correction Center. I would highly recommend his work to any working professional in need of his services.

Sincerely,

William J. Busacca DDS, PS
